

INFORMATION ON BTO FLATS IN MAY 2021 EXERCISE

Garden Bloom @ Tengah

Located in the Garden District of Tengah town, Garden Bloom @ Tengah will be bounded by Tengah Central and Tengah Garden Walk. The development comprises 7 residential blocks that are 15 storeys in height. See details in [Table A\(1\)\(a\)](#) below.

Table A(1)(a): Garden Bloom @ Tengah

Project	No. of units				Facilities
	2-room Flexi	4-room	5-room	Total	
Garden Bloom @ Tengah	266	265	251	782	Childcare Centre

2 Homes in Tengah town will be surrounded by lush greenery and nature. To harness nature's benefits for greater environmental health and residents' well-being, HDB has applied its Biophilic Town Framework to guide the enhancement of existing natural assets and the design and development of neighbourhood landscapes in Tengah. Residents can look forward to nature-centric neighbourhoods that offer a strong sense of place, better well-being, and an enhanced quality of life.

3 A town-wide Active, Beautiful, and Clean Waters design strategy will be introduced to draw people closer to nature, with a variety of outdoor spaces and landscape features which slow down and treat stormwater runoff. For more details on Tengah town, please visit [HDB's exhibition](#) at HDB Hub, Toa Payoh.

4 Tengah will be the first town to integrate housing developments with the area's surrounding greenery and biodiversity. One major attraction will be the approximately 100m-wide and 5km-long Forest Corridor, which will form part of the larger network of greenery that connects the Western Water Catchment Area and the Central Catchment Nature Reserve. In collaboration with the National Parks Boards, various tree species will be planted in the Forest Corridor to transform it into a rich forest habitat.

5 Complementing the Forest Corridor is the Forest Fringe, a 15m- to 20m-wide linear greenscape that will provide a tranquil and rustic environment for residents to enjoy flora and fauna, and envelop the town within a scenic and natural landscape. In addition, extensive park spaces, such as the Central Park and Community Farmways, will string key amenities and facilities together, providing a safe environment for residents to access their daily amenities.

6 Tengah will be the first HDB town to have a car-free town centre nestled next to a lush green park. To encourage green commuting, there will be dedicated walking and cycling paths along all roads to create seamless connections within the town. The upcoming Jurong Region Line and bus services will serve the public transport needs of residents.

7 Tengah is also the first HDB town to be planned with town-wide smart technologies from the outset. Guided by HDB's Smart Town Framework, the various districts will integrate smart technology in its design, so that residents can enjoy a quality living environment. Autonomous vehicles will be piloted in Tengah town to provide convenient first-mile-last-mile connection to key transport nodes and amenities.

8 Vibrant commercial facilities are planned for the town centre and in the districts, complementing other shopping and dining options in the nearby Bukit Batok town. Check out the heartland shops on [Where2Shop@HDB](#).

9 To encourage green and sustainable living, Garden Bloom @ Tengah will have several eco-friendly features such as:

- Separate chutes for recyclable waste
- Regenerative lifts to reduce energy consumption
- Bicycle stands to encourage cycling as an environmentally-friendly form of transport
- Parking spaces to facilitate future provision of electric vehicle charging stations
- Use of sustainable products in the development
- Active, Beautiful, Clean Waters design features to clean rainwater and beautify the landscapes

10 Garden Bloom @ Tengah will come with the following smart solutions to reduce energy usage, and contribute to a more sustainable and safer living environment:

- Smart-enabled homes with provisions to support easy installation of smart systems
- Smart Lighting in common areas to reduce energy usage
- Smart Pneumatic Waste Conveyance System to optimise the deployment of resources for cleaner and fuss-free waste disposal

11 Home owners at Garden Bloom @ Tengah can subscribe to have air conditioning provided from a centralised cooling system. This system for public housing is the first of its kind in Singapore.

12 Cooling to each household unit will come from highly energy efficient chillers, and home owners need not install nor maintain outdoor condensing units on their air-conditioner ledge. They will get to enjoy cost savings while contributing to a sustainable lifestyle in this eco-friendly district. Home owners may decide to subscribe to the centralised cooling system after signing the Agreement for Lease. More information will be provided during the flat selection exercise.

MacPherson Weave

14 Located next to MacPherson MRT station, Macpherson Weave is bounded by Circuit Road, Circuit Link, and Paya Lebar Road. MacPherson Weave takes its name from its colourful façade, which features interweaving bands of colours inspired by tropical fruits grown in Singapore. The development will include a fruit-themed children's playground alongside landscaped spaces and fitness areas.

15 The development comprises 7 residential blocks ranging from 15 to 19 storeys in height. See details in [Table A\(1\)\(b\)](#) below.

Table A(1)(b): MacPherson Weave

17 A range of recreational and sports facilities is available within Geylang town. Residents can enjoy an evening stroll or participate in outdoor activities at one of several nearby parks, or go for a jog at the park connector along Pelton Canal. They also have easy access to Geylang East Swimming Complex and the MacPherson Community Centre. The Geylang East Library is a short bus ride away.

18 Parents with school-going children can consider nearby schools such as Canossa Catholic Primary School, Maha Bodhi School, Geylang Methodist Primary and Secondary schools, as well as Manjusri Secondary School. The adjacent MacPherson MRT station, bus services, and the Pan Island Expressway (PIE) will serve residents' transport needs.

19 To encourage green and sustainable living, MacPherson Weave will have several eco-friendly features such as:

- Separate chutes for recyclable waste
- Regenerative lifts to reduce energy consumption
- Bicycle stands to encourage cycling as an environmentally friendly form of transport
- Parking spaces to facilitate future provision of electric vehicle charging stations
- Use of sustainable products in the development
- Active, Beautiful, Clean Waters design features to clean rainwater and beautify the landscapes

20 The common areas within MacPherson Weave will be installed with Smart Lighting to reduce energy usage, and contribute to a sustainable and safer living environment.

Telok Blangah Beacon

27 Telok Blangah Beacon is located along Telok Blangah Drive and within an existing neighbourhood centre. At 38-storeys high, the development is imagined as a beacon to the surrounding neighbourhood centre and pedestrian mall. The residential block comprises 175 units of 3- and 4-room flats with integrated commercial facilities located on the lower floors. Residents at Telok Blangah Beacon will be served by the existing multi-storey car park at Block 78A. See details in Table A(1)(d) below.

OPTIONAL COMPONENT SCHEME (OCS)

a) 2-room Flexi flats

33 The 2-room Flexi flats will be available in Type 1 and Type 2. The Type 2 units in MacPherson Weave, Garden Bloom @ Tengah and Woodgrove Ascent come with a flexible space that buyers can use for dining, for entertainment when family members or friends visit, or to accommodate a live-in caregiver if needed.

34 Buyers of the 2-room Flexi flats in MacPherson Weave and Woodgrove Ascent will have the option of flooring (Package 1) and sanitary fittings (Package 2) under the OCS. For Garden Bloom @ Tengah which will be built using the Prefabricated Prefinished Volumetric Construction (PPVC) method, the 2-room Flexi flats will come with floor finishes, internal doors and sanitary fittings. Hence, OCS for Package 1 and 2 is not applicable for this project.

35 Elderly buyers of 2-room Flexi flats on short leases, who wish to have a flat in a move-in condition can choose an additional Package 3, see Table A(2) for details. Buyers of the Type 2 units in MacPherson Weave, Garden Bloom @ Tengah and Woodgrove Ascent with flexible space who opted for the Package 3 will have an additional door to facilitate the use of the flexible space. The cost of the optional components will be added to the selling price of the flat. Grab bars will be automatically provided for short-lease 2-room Flexi flats.

Table A(2): OCS for 2-room Flexi Flats for May 2021 BTO Projects

Package 3[^] - Lighting - Window grilles - Built-in kitchen cabinets** with induction hob and cooker hood, kitchen sink, tap and dish drying rack - Built-in wardrobe - Water heater - Mirror and toilet roll holder in bathroom	\$6,000 (MacPherson Weave, Woodgrove Ascent) \$6,070 (Garden Bloom @ Tengah)	\$7,230 ^{##} (MacPherson Weave, Woodgrove Ascent) \$7,270 ^{##} (Garden Bloom @ Tengah)*	Not Applicable	

Note:

[#] Buyers of 2-room Flexi flats in MacPherson Weave and Woodgrove Ascent, who opt for Package 1 will be provided with a 3-panel sliding partition, separating the living room and bedroom. Those who do not opt for Package 1 will be provided with a short wall and 2-panel sliding partition separating the living room and bedroom.

Vinyl strip flooring are provided for the 2-room Flexi flats.

[^] Buyers of MacPherson Weave and Woodgrove Ascent who opt for Package 3 must opt for Package 1.

^{*} Garden Bloom @ Tengah will be built using PPVC method. Due to the additional columns required, the flat size will be slightly larger at 38 and 47 sqm for the 2-room Type 1 and Type 2 units respectively (instead of 36 and 46 sqm).

^{**} Buyers who are wheel-chair bound may choose to have a lower kitchen countertop.

^{##} Inclusive of a laminated UPVC folding door for the flexible space.

b) 3-room and larger flats

36 Buyers of new 3-room and larger flats can opt for flooring in the living/dining and bedroom, as well as internal doors and sanitary fittings in bathrooms (i.e. wash basin, water tap and shower mixer). The cost of the optional components (see [Table A\(3\)](#)) will be added to the selling price of the flat.

37 For Garden Bloom @ Tengah which will be built using the PPVC method, the flats will come with floor finishes, internal doors and sanitary fittings. This will allow flat buyers to move into their flat more quickly as less renovation works are required. With these provisions, the OCS will not be applicable to these flats.

Table A(3): OCS for May 2021 BTO Projects

Project	Flat Type	Flooring for Living/Dining and Bedrooms*	Internal Doors^ and Sanitary Fittings
Telok Blangah Beacon	3-room	\$3,270	\$2,640
